

Java Developer

We are always interested in meeting Java developers. If you are a Java developer who is always up for a challenge, keep reading.

We offer

- Challenges
- Flexibility
- Opportunity to take full responsibility for your code
- Opportunity to discuss solutions with experienced colleagues
- Opportunity to excel

We implement

- Test Driven Development
- Domain Driven Design
- Pair Programming
- Agile approach
- Command Query Responsibility Segregation

We mainly use

- Java 8
- Spring Framework 5
- Angular 4
- PostgreSQL

For more information about the technology we use, check our [website](#).
